19. Segment Information, page 100

1. We have read your response to comment two from our letter dated December 3, 2010. We believe your Lamons and Arrow operating segments do not meet the criteria in ASC 280-10-50-11 to be aggregated into the same reportable segment. We also believe your Cequent Australia operating segment does not meet the criteria to be aggregated into the same reportable segment with your Cequent Performance Products and Cequent Consumer Products operating segments. Please revise your segment presentation accordingly. Please show us

supplementally what your revised segment presentation and segment MD&A will look like. If the quantitative thresholds in ASC 280-10-50-12 were not met and you determine either operating segment (Arrow or Cequent Australia) will not be presented as a separate reportable segment, please also supplementally explain how you considered the following:

- Whether the operating segment would also not have met the quantitative thresholds in each prior period presented in your financial statements;
- Whether management views the operating segment as a key component of your business; and
- Whether management expects the operating segment to meet the quantitative thresholds in future periods.

Please contact Ernest Greene, Staff Accountant at (202) 551-3733 or me at (202) 551-3769 if you have questions regarding comments on the financial statements and related matters.

Sincerely,

Rufus Decker
