Forward-Looking Statements

Any "forward-looking" statements, within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934, contained herein, including those relating to TriMas' business, financial condition or future results, involve risks and uncertainties with respect to, including, but not limited to: general economic and currency conditions; competitive factors; market demand; our ability to realize our business strategies; government and regulatory actions, including, without limitation, the impact of current and future tariffs and reciprocal tariffs, quotas and surcharges, as well as climate change legislation and other environmental regulations; our ability to identify attractive acquisition candidates, successfully integrate acquired operations or realize the intended benefits of such acquisitions; our ability to recognize the benefits of and effectively deploy the net proceeds from the sale of TriMas Aerospace; pressures on our supply chain, including availability of raw materials and inflationary pressures on raw material and energy costs, and customers; the performance of our subcontractors and suppliers; risks and uncertainties associated with intangible assets, including goodwill or other intangible asset impairment charges; risks associated with a concentrated customer base; information technology and other cyber-related risks; risks related to our international operations; changes to fiscal and tax policies; intellectual property factors; uncertainties associated with our ability to meet customers' and suppliers' sustainability and environmental, social and governance ("ESG") goals and achieve our sustainability and ESG goals in alignment with our own announced targets; litigation; contingent liabilities relating to acquisition and disposition activities; interest rate volatility; our leverage; liabilities imposed by our debt instruments; labor disputes and shortages; the disruption of operations from catastrophic or extraordinary events, including, but not limited to, natural disasters, geopolitical conflicts and public health crises; the amount and timing of future dividends and/or share repurchases, which remain subject to Board approval and depend on market and other conditions; our future prospects; and other risks that are detailed in the Annual Report on Form 10-K for the year ended December 31, 2025. The risks described are not the only risks facing our Company. Additional risks and uncertainties not currently known to us or that we currently deemed to be immaterial also may materially adversely affect our business, financial position and results of operations or cash flows. These risks and uncertainties may cause actual results to differ materially from those indicated by the forward-looking statements. All forward-looking statements made herein are based on information currently available, and the Company assumes no obligation to update any forward-looking statements, except as required by law.

Non-GAAP Financial Measures

In this presentation, certain non-GAAP financial measures may be used. Reconciliations of these non-GAAP financial measures to the most directly comparable GAAP financial measure may be found in the Appendix at the end of this presentation or in the earnings releases available on the Company's website. Additional information is available at www.trimas.com under the "Investors" section.

Please see the Appendix for details regarding certain costs, expenses and other amounts or charges, collectively described as "Special Items," that are included in the determination of net income, earnings per share and/or cash flows from operating activities under GAAP, but that management believes should be separately considered when evaluating the quality of the Company's core operating results, given they may not reflect the ongoing activities of the business. Management believes that presenting these non-GAAP financial measures, by adjusting for Special Items, provides useful information to investors by helping them identify underlying trends in the Company's businesses and facilitating comparisons of performance with prior and future periods. These non-GAAP financial measures should be considered in addition to, and not as a replacement for or superior to, the comparable GAAP financial measures.

A Differentiated Growth Platform

Manufacturing DNA

- Deep expertise in precision injection molding and engineered packaging solutions
- Proven ability to manufacture complex, high-performance components at scale
- Culture rooted in safety, quality, reliability and continuous improvement
- Robust controls designed to safeguard product integrity, protect end-use performance and meet stringent customer and regulatory requirements

Sustainability Leadership

- Innovation-led sustainability and lightweighting solutions without compromising performance
- Recyclable and reduced-impact packaging aligned with customer ESG objectives and regulatory expectations
- Collaborative partner in customers' environmental and circularity initiatives
- Efficient product design and manufacturing processes that minimize waste, optimize energy use and lower total environmental footprint

Deep Customer Relationships

- Trusted partner to leading brands, supporting critical applications
- Early-stage design collaboration and application-specific engineering
- Long-standing customer relationships built on consistent performance, reliability and quality
- Global service and manufacturing footprint enabling responsive support and dependable supply across regions

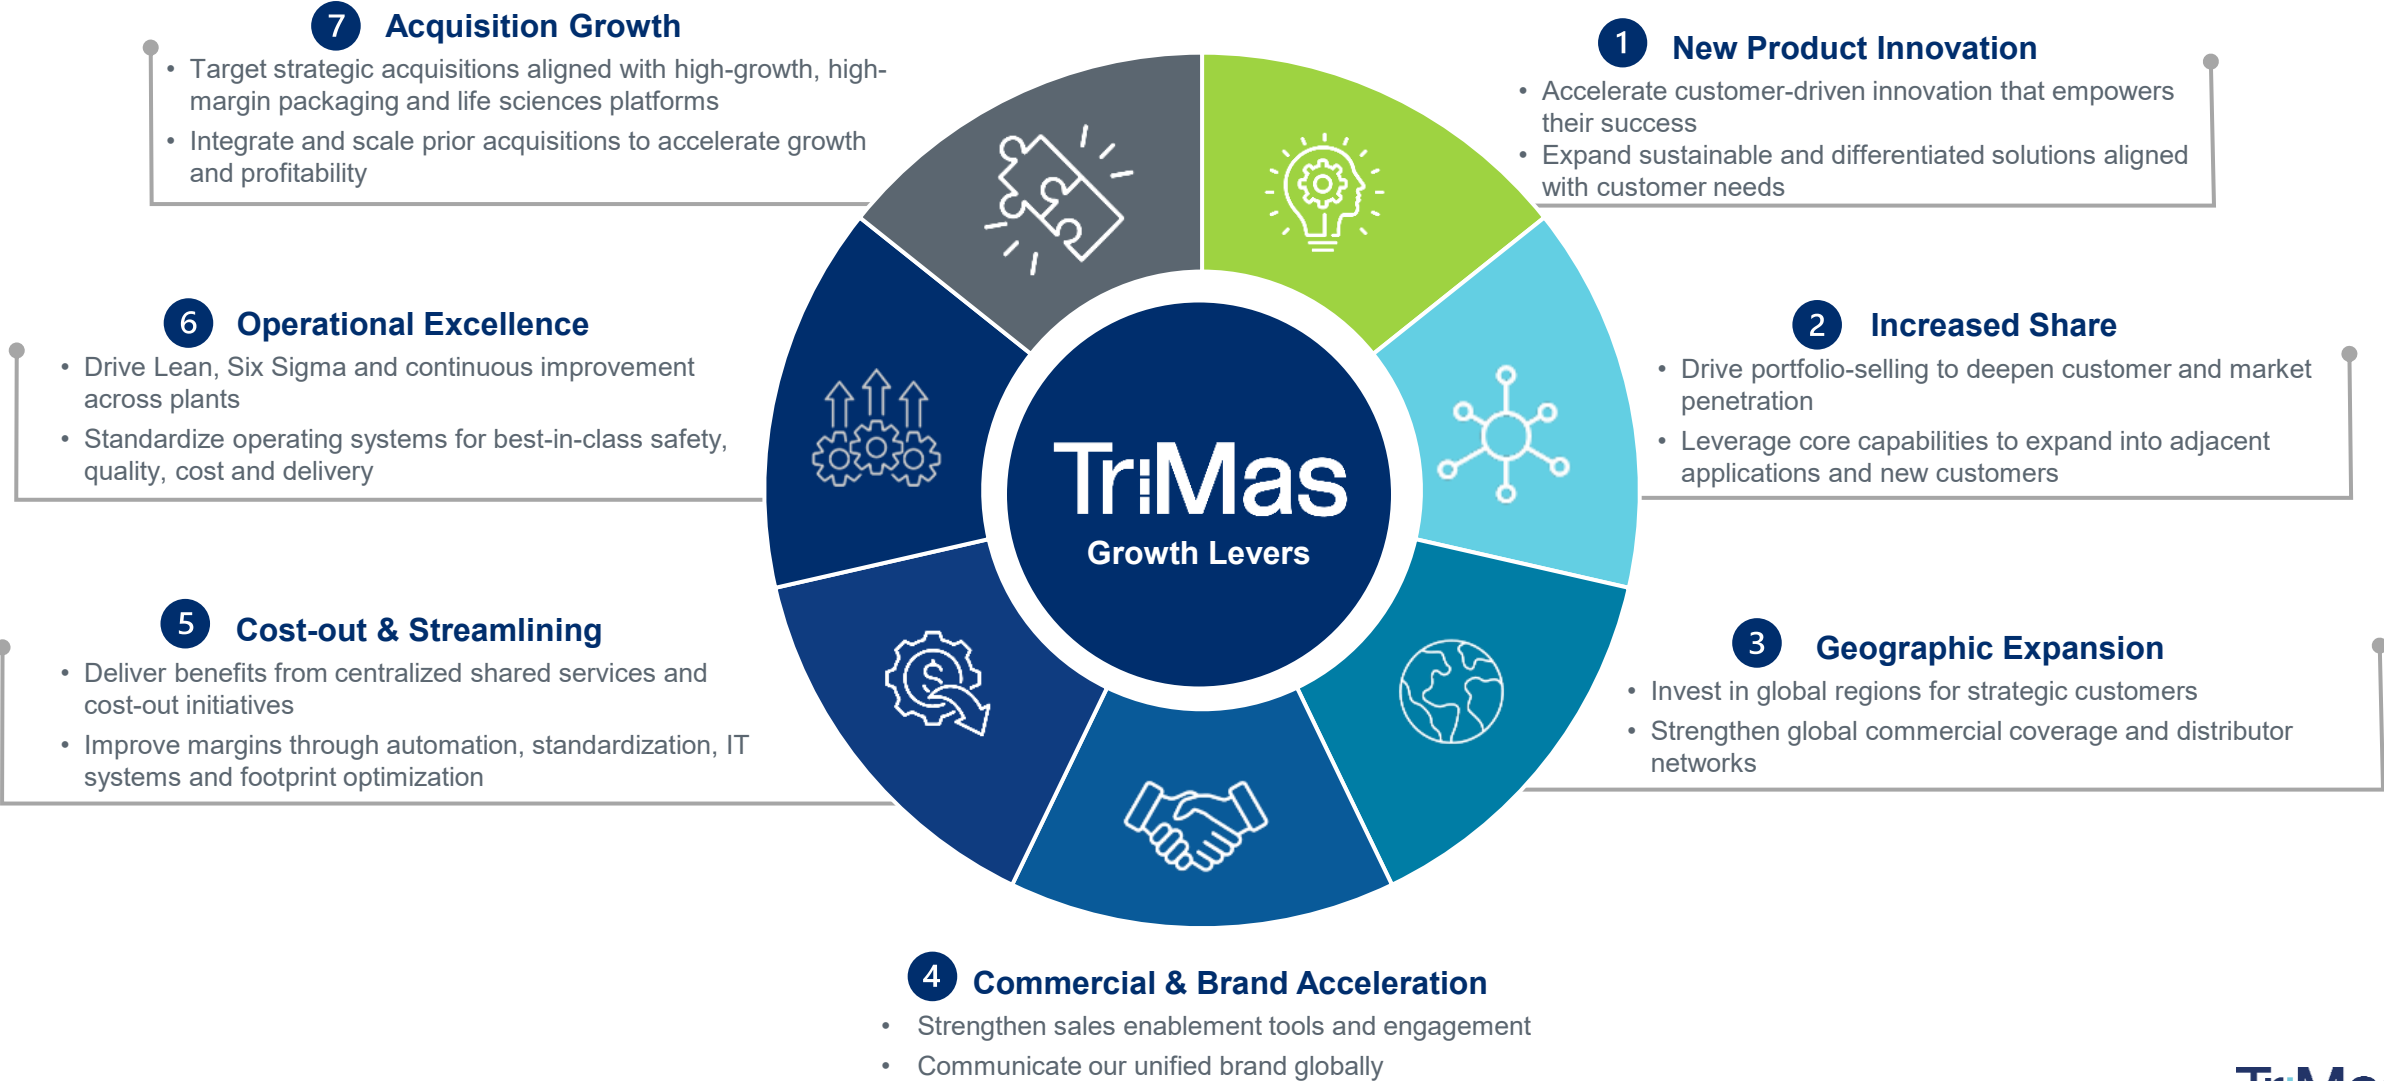

Engineered Innovation

- Proprietary packaging and life science technologies tailored to critical applications
- Strong innovation pipeline driven by customer and market needs
- Highly engineered solutions that solve complex performance challenges
- Ability to scale differentiated innovations globally, leveraging shared processes and know-how across end markets

What's Next: Multiple Levers for Growth

Revitalized Organization Focused on Driving Meaningful Shareholder Value

Q1 2026 Earnings

Opening Remarks

Q1 2026: Executing the Plan

Successfully Closed the TriMas Aerospace Divestiture on March 16, 2026

- Generated approximately \$1.24 billion of net after-tax cash proceeds
- Repaid borrowings under the revolving credit facility related to Q4 share repurchase activity
- Repurchased additional shares, with remaining proceeds invested in interest-bearing accounts

Disciplined Capital Deployment

- Repurchased approximately 4.5 million shares between the divestiture announcement and the end of Q1; ~36.3 million shares outstanding as of March 31, 2026
- Focus remains on investing in organic growth and pursuing targeted, high-quality acquisitions that will elevate or expand our current packaging and life science platforms

Continued Operational Improvements

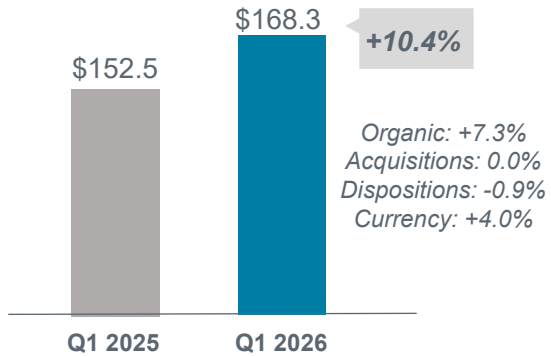

- Intensified focus on standardization, operational excellence and continuous improvement
- Implemented actions to deliver ~\$10M of savings in 2026 and ~\$15M annually, as previously announced
- Announced consolidation of Atkins, Arkansas, packaging facility into other locations by mid-year
- Closely monitoring geopolitical developments in the Middle East and actively managing potential impacts across our operations and supply chains

Well-positioned to accelerate performance in 2026 and beyond

Q1 2026 Results

- Strong year-over-year sales growth driven by organic volume gains and favorable currency
- Profit and margin expansion reflecting higher sales leverage and benefits from recent cost-streamlining actions
- EBITDA ⁽²⁾ increased meaningfully with margin improvement
- EPS ⁽³⁾ grew 60% year-over-year, supported by operating performance, interest income and disciplined cost management
- The impact of favorable performance and lower outstanding share count offset higher interest expense and tax rate year-over-year

Solid Q1 execution; building momentum for the balance of the year

Note: All items are from continuing operations and adjusted for Special Items. Please see the Appendix for a detailed reconciliation to GAAP results. Unaudited, dollars in millions, except per share amounts.

(1) Segment Operating Profit includes operating profit from continuing operations less corporate expenses included within operating profit, all as adjusted for Special Items.

(2) EBITDA is defined as income (loss) from continuing operations plus expense (benefit) for interest, taxes, depreciation, amortization and non-cash stock compensation, all as adjusted for the impact of Special Items.

(3) Earnings Per Share is defined as diluted EPS from continuing operations plus or minus the after-tax impact of Special Items, acquisition-related intangible amortization expense and non-cash compensation expense.

Balance Sheet & Capitalization

Net Cash Position Provides Future Financial Flexibility

Key Credit Statistics	March 31, 2026	December 31, 2025	March 31, 2025
Total Debt*	\$396.6	\$469.2	\$434.2
Less: Cash	\$1,309.6	\$30.0	\$32.7
Net Debt	(\$913.0)	\$439.2	\$401.5
Net Leverage ⁽¹⁾	n/m	2.6x	2.7x
Quarterly Free Cash Flow ⁽²⁾	(\$16.1)	\$26.9	\$0.9

- Strong balance sheet following the TriMas Aerospace divestiture, with a net cash position of \$913 million
- Cash currently invested in interest-bearing accounts, generating attractive interest income until redeployed
- Completed \$156 million of share repurchases between the divestiture announcement and the end of Q1
- Long-term, low-interest senior notes with no maturities until 2029 provide additional balance sheet stability
- Q1 Free Cash Flow⁽²⁾ declined year-over-year, primarily due to higher levels of investment to support future growth
- Financial flexibility supports disciplined capital allocation, including organic investment, targeted acquisitions and shareholder returns

Note: All items are adjusted for Special Items. Please see the Appendix for a detailed reconciliation to GAAP results. Unaudited, dollars in millions.

(1) Net Leverage for prior periods is historically reported including TriMas Aerospace. Net Leverage is defined as Net Debt/LTM Adjusted EBITDA. As of March 31, 2026, the net leverage ratio as defined in the Company's credit agreement was 1.8x.

(2) Free Cash Flow is defined as Net Cash Provided by/(Used for) Operating Activities from continuing operations, excluding the cash impact of Special Items, less capital expenditures.

Segment Overview: Packaging

Adjusted for Special Items	Q1 2026	Q1 2025	Change	Q4 2025
Net Sales	\$139.2	\$127.6	9.1%	\$129.3
Operating Profit	\$17.7	\$17.8	-0.8%	\$15.0
Operating Margin	12.7%	14.0%	-130 bps	11.6%
Adjusted EBITDA ⁽¹⁾	\$25.5	\$26.2	-2.7%	\$21.5
Adjusted EBITDA Margin	18.3%	20.5%	-220 bps	16.6%

Takeaways

- Sales increased 9.1% year-over-year, evenly split between organic growth and favorable foreign currency translation
- Growth was led by increased sales across beauty and personal care, and life sciences end markets, partially offset by lower sales of industrial closure applications
- Q1 margins improved sequentially relative to Q4 2025, as expected, driven by higher sales levels and operational improvement actions, yet declined year-over-year due to a less favorable product sales mix

Forward Perspective

- Expecting 3% to 6% full-year sales growth in 2026, with operating profit margins expanding to the 14% to 15% range
- Sequential margin expansion expected in Q2 and again in Q3, reflecting cost-streamlining initiatives, operational and commercial excellence programs, prior acquisition integration and facility optimization
- Actively monitoring conditions and working with our customers, suppliers and operating teams to mitigate potential impacts arising from global conflicts

Note: All items are adjusted for Special Items. Please see the Appendix for a detailed reconciliation to GAAP results. Unaudited, dollars in millions.

(1) Adjusted EBITDA is defined as income (loss) plus expense (benefit) for interest, taxes, depreciation, amortization and non-cash stock compensation, all as adjusted for the impact of Special Items.

Segment Overview: Specialty Products

<i>Adjusted for Special Items</i>	Q1 2026	Q1 2025	Change	Q4 2025
Net Sales	\$29.1	\$24.9	17.0%	\$26.2
Operating Profit	\$2.9	\$0.1	<i>n/m</i>	\$1.7
Operating Margin	9.8%	0.4%	940 bps	6.5%
Adjusted EBITDA ⁽¹⁾	\$3.6	\$0.9	291.3%	\$2.4
Adjusted EBITDA Margin	12.4%	3.7%	870 bps	9.1%

Takeaways

- Q1 year-over-year sales growth of 24% for Norris Cylinder more than offset the loss of sales related to the divestiture of Arrow Engine in January 2025
- Q1 operating profit margin improved by 940 basis points, as Norris Cylinder's higher sales levels and improved fixed cost absorption more than offset the lost profit related to the divestiture

Forward Perspective

- Expect 3% to 6% YoY sales growth in 2026, with operating profit margins ranging from 8% to 10%
- Stronger order intake, supported by the "Made in the USA" designation and prior cost-restructuring actions, expected to contribute to continued recovery and performance at Norris Cylinder

Note: All items are adjusted for Special Items. Please see the Appendix for a detailed reconciliation to GAAP results. Unaudited, dollars in millions.

(1) Adjusted EBITDA is defined as income (loss) plus expense (benefit) for interest, taxes, depreciation, amortization and non-cash stock compensation, all as adjusted for the impact of Special Items.

Full Year 2026 Assumptions

- Margin expansion driven primarily by improved operating performance across both segments, plus the impact of cost-out initiatives
- Expect YoY quarterly improvement in sales, earnings and EPS in each quarter of 2026 compared to 2025
- Adjusted EPS⁽¹⁾ outlook assumes approximately \$9 million of interest income for each of the remaining three quarters of 2026, assuming no significant change in interest rates or redeployment of the cash proceeds
- Interest expense expected to be in the range of \$20 million to \$22 million
- Corporate cash expenses expected to decline by ~\$10 million year-over-year reflecting cost-out savings
- Non-cash stock compensation expected to be ~\$10 million
- Effective tax rate expected to be approximately 27% to 29%
- Outlook assumes no material impact from global conflicts or geopolitical actions on costs, supply or end-market demand

All of the figures on this slide are adjusted for any current and future Special Items.
Sales growth and margin improvement as compared to full year 2025.

(1) Adjusted Earnings Per Share is defined as diluted EPS from continuing operations plus or minus the after-tax impact of Special Items, acquisition-related intangible amortization expense and non-cash compensation expense.

Levers for Long-term Value Creation

Continuous Improvement

- Embed Operational Excellence through Lean, Six Sigma and continuous improvement discipline across all plants
- Standardize operating systems to deliver best-in-class safety, quality, cost and delivery
- Optimize manufacturing footprint and cost structure to drive sustained margin improvement

Innovation

- Accelerate customer-driven product innovation to address evolving needs
- Expand sustainable solutions aligned with customer needs
- Leverage portfolio-selling to deepen customer and market penetration
- Expand technology and engineering capabilities to improve speed-to-market and strengthen competitive positioning

Capital Allocation

- Pursue strategic, high-quality acquisitions to complement, enhance or expand our platform in packaging and life sciences
- Prioritize investment in organic growth to support innovation, productivity and customer initiatives
- Return capital to shareholders through share repurchases and dividends, while maintaining balance sheet strength

Portfolio Shaping

- Focus on highest-value products and platforms with differentiation and above-market growth potential
- Add acquisitions that enhance value propositions, capabilities and end market exposure
- Fine-tune portfolio to reduce exposure to non-core, lower margin offerings to improve mix and returns
- Elevate the existing business through innovation, commercial excellence and operational improvements

Examples

TriMas has multiple levers available to continue to unlock shareholder value

(1) Income tax effect of net income adjustments is calculated on an item-by-item basis, utilizing the statutory income tax rate in the jurisdiction where the adjustments occurred. For the three month periods ended March 31, 2026, and 2025, the income tax effect on the cumulative net income adjustments varied from the tax rate inherent in the Company's reported GAAP results, primarily as a result of certain discrete items that occurred during the period for GAAP reporting purposes.

(2) 513,660 shares would have been dilutive to the computation of earnings per share in an income position for the three months ended March 31, 2026.

(1) These amounts relate to acquisitions completed as of April 30, 2026. The Company is unable to provide forward-looking estimates of future acquisitions, if any, that have not yet been consummated.

(2) The Company is unable to provide forward-looking estimates of Special Items without unreasonable effort, due to the uncertainty and inherent difficulty of predicting the occurrence and the financial impact of such items and the periods in which such items may be recognized. For the same reasons, the Company is unable to address the probable significance of the unavailable information, which could be material to future results.
